

MY LOVELY SUSTAINABLE PRODUCT!

RECYCLED BOTTLE FLOWER POT

A creative gift
made with love
and recycled
materials.

Small actions
make a big
difference

Name: José Miguel Vargas
Code: 128875
Level: B1

ABOUT YOUR PRODUCT RECYCLED BOTTLE FLOWER POT

What is it?

It is a small flower pot made from a recycled plastic bottle. I decorated it to give it a beautiful and creative appearance.

What is it used for?

It is used to plant small flowers, herbs, or other plants. It can also be used as a decoration for a bedroom, office or home.

Who is it for?

It is a meaningful gift for a friend, family member or someone special.

WHY IS IT SUSTAINABLE?

This product is sustainable because it gives a plastic bottle a second life instead of throwing it away. It also encourages people to recycle and take care of the environment.

MATERIALS

What materials did you use?

- 1 empty plastic bottle
- Soil
- A small plant or flower
- Paint
- Paintbrush
- Scissors
- Decorative materials
- Glue
- Water

WHERE WERE THEY ORIGINALLY USED FOR?

The plastic bottle was originally used as a container for a drink. Instead of throwing it away, I reused it to create my flower pot. The other materials were used for gardening, painting and decoration.

WHERE DID YOU FIND THEM?

I found the plastic bottle at home. I already had most of the other materials, such as paint, glue and scissors.

HOW WE MADE IT

- 1 First, I washed and dried the plastic bottle.
- 2 Then, I carefully cut the bottle in half and kept the bottom part.
- 3 Next, I painted and decorated the bottle to make it look attractive.
- 4 After that, I put some soil inside the bottle.
- 5 Finally, I planted a small flower and added the final decorations.

FINAL MESSAGE A GIFT MADE WITH LOVE

This is a meaningful gift because I made it with my own hands and reused materials that could have become waste.

It represents love, friendship, creativity and care for the environment.

I would give this gift to a special friend because a plant represents something that can grow and become stronger over time, just like a good friendship.

"A small recycled bottle
can become a beautiful gift."
